

Monday 21st November 2016

Dear Parent/Carer

I am writing to inform you that due to your child’s outstanding attitude and performance in Science this term they have been selected to participate in the Ark Super Science Challenge. This is a KS3 enrichment programme to develop the scientists of tomorrow by:

- **Raising aspirations**, giving pupils a flavour of life at university and as a scientist
- **Developing skills** of enquiry, investigation, reasoning, presentation and resilience in pupils

In order to inspire our Super Science participants, the students will be attending a university-based regional inspirational event on the 29th of November 2016 at the Coventry University College along with students from Ark Boulton and St Albans Academy. Here the students will participate in an interactive, Science-based taster session, go on a campus tour with current students and attend a higher education talk.

The session is from 1.50 pm - 5.10 pm. We will be taking the coach to take the students from ARK Kings to Coventry University College and back. The students will leave school at 11.55 am giving ourselves enough time to reach there on time.

We will leave Coventry University College at 5.10 pm; we should therefore arrive back to school by 7.00 pm.

We believe that the medical and contact information the school holds is up to date and accurate. If there are any changes, please let us know by sending a note through your child or ringing school to update.

Yours sincerely

Mrs A Jesmin
Teacher of Science
Ark Kings Academy
