Values Day - Resilience

Today we celebrated VALUES Day, and focused on Resilience. The children have been taught about individual charities that their class had chosen and learnt about what challenges they face. The activities included identifying the barriers that people may face with a disability/illness. The children got to experience how to be resilient in the face of these challenges.

The children used our school motto “I can and I will”, supported their peers, showed confidence and belief in one another and never gave up.

The charities our pupils learnt about were:

- RNIB supporting blind and partially sighted people
- Birmingham Children’s Hospital Charity
- Help for Heroes: Support For Our Wounded
- British Paralympic Association
- Meningitis Trust
- Save the Children
Reaching Out for Success in Everyone
